Outlook - Issue 18 - January 2011

Floods Affect more than just Property.

The recent flooding has made an impact on business and properties in Brisbane, but there are also greater issues that have can cause impacts to peoples wellbeing. Settlement of Properties have been delayed as a result of the floods.

The above photo's of Brisbane CBD, Before and after the event, that led to 10 city blocks to be without power.

The above photo's of the popular Southbank Area, Before and after the event, that led to pool and carpark flooding to the Convention centre as well as the surrounding area's.

Milton and Suncorp Stadium before and after the event, also affected with the flooding.

Tennyson Reach and the Queensland Tennis Centre, that experienced flooding damage Before and after the event.

Local Rocklea Markets Washed Out

The Rocklea markets that supplies local and interstate fruit and vegetable was a loss of epic proportions with stock losses as well as equipment on site. This will affect the prices of fruit and vegetables for the next 2 years.

Above: The Local Airfield fire trucks, were used in the washing out of the markets. Below: Bunnings Rocklea Carpark.

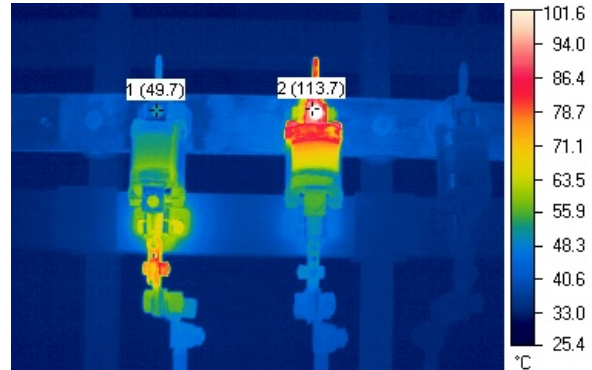

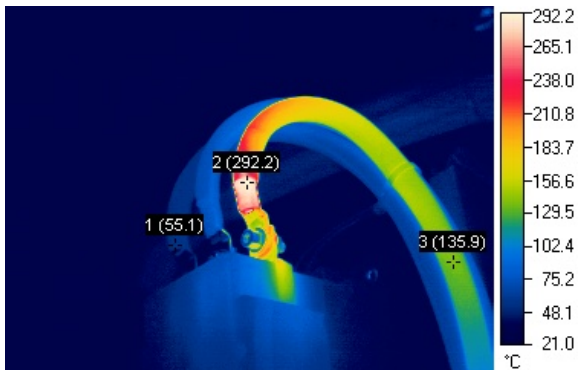

New Services Available Engineering Services

Structural and Engineering Reports are now available in our suite of services

Thermal Scanning Services

Scanning electrical equipment regularly is important in finding hotspots before a breakdown happens and reduced downtime of plant and equipment and unplanned repair works.

Fire Door Replacement and Testing Services Available

Replacement and testing of fire doors are now available in our suite of services.

United Nations Meeting for Human Rights and Business Ethics

We attended the meeting of United Nations for human rights with a number of other Business people to discuss human rights and the ethics in business today. It was certainly very humbling experience being a part of the process with some larger companies than ourselves, and an opportunity to express opinions, under Chatham House rules.

Please support our company, so we can continue our community work to help others around the world.

Above: REV Tim Costello (CEO World Vision) Paul Ronalds (Dept of Prime Ministers and Cabinet), Jane Grownow (Principal advisor Community Relations, Rio Tinto) and Louise Davidson (ESG Investment Manager Cbus).
