Griffith University Business School – Global Insight Series

The Global Insight Series features Professor Stephen Lundin, Author of the world famous FISH Books, spoke on the Nine Lives of Innovation and was facilitated by Jennie Brockie Host of SBS Global Insight Series. The Event was held last month, sponsored by The Australian Institute of Management and the Australian Organisation for Quality.

United Nations Working Group for Business

The second of the meetings was held in Sydney with an excellent line-up of speakers from government, business and civil society with Australian Human Rights Commission, Federal attorney general's and Treasury office and was hosted by Westpac.

Certificate in Sustainable Operations Released

FWR Group and Independent Inspections Release the Sustainable Operations . Sustainability for an organisation is impacted by its own operations, suppliers, customers, regulations, and the local community and ecological environment. There are three Sustainable Operations qualifications each targeting a different level of focus within an organisation.

MSS40111 Certificate IV in Sustainable Operations for implementing sustainability related actions in part of a large organisation or in an entire small or medium enterprise.
