Outlook - Issue 15 - June 2010

Independent Inspections goes Carbon Neutral!!

Independent Inspections has been a corporate leader in becoming the first company to be endorsed by Sustainable Certification, endorsing its policy of being an environmentally responsible business in all of it's operations.

Sustainable Certification is a 3rd party certification body, for third party certification audits and surveillance to world's best practice standards, JAS-ANZ accredited (see www.sustainablecertification.com.au). Contact us or Sustainable Certification on **03 9328 3844 or 1800 024 940** for more information.

World Environment Day- Logan Eco Action Festival (LEAF)

Independent Inspections was proud to sponsor the Logan Eco Action Festival (LEAF), which was a free community festival, encouraging people to participate on World Environmental Day. This educational event was designed to stimulate awareness about the topical environmental issues we face as a community, and through education empower you, your family and your friends to make a positive change.

Identifying your needs

Reduce Emissions with Natures Paper

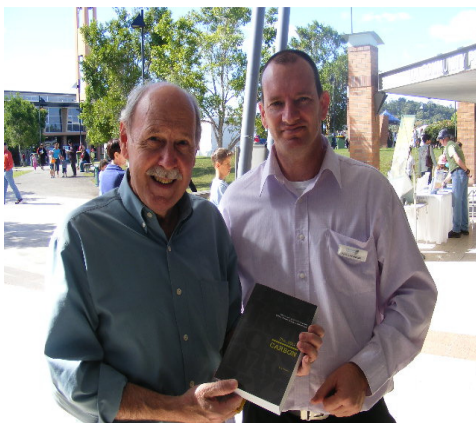

Nature's Paper is 100% different and 100% equal to traditional paper. By choosing this as your everyday stock, you are choosing to save the environment and give something to future generations, without the loss of quality to your printing and copying.

Independent Inspections reports and material are printed on Natures Paper.

Managing Director Peter Greenham endorsing Nature's Paper as a supplier. The move reduced Independent Inspections' carbon footprint by at least 7 %.

Ken Hickson – The ABC of Carbon

Peter Greenham with Ken Hickson, author of "**The ABC of Carbon**".

The book is an illustrated, alphabetical digest with an encyclopaedic approach to carbon and climate change.

In the book, opinions and facts are gathered together alongside global personalities and advocates for action. It will change your opinion of your companies environmental policy.

The book is available through Independent Inspections for \$50

Corporate and Social Responsibility

Independent Inspections is a member of a number of Non Government Organisations' namely:

Members of Success and Sustainability (MOSS) Models of Success and Sustainability (MOSS) is Australia's industry body for individuals, corporations, governments and not-for-profit organisations interested in Corporate Social Responsibility (CSR) and Sustainability. <http://www.moss.org.au/>

The Australian Organisation for Quality - Queensland Inc (AOQ-QLD®) is the country's largest industry group in the field of Quality and Business Management. <http://www.aoq.org.au/>

The Institute of Business Leaders is a unique professional body providing a range of facilities exclusively for CEOs and Senior Executives of leading organisations. <http://www.businessleaders.com.au>

Learn to do your Own Footprint and save \$\$\$\$

Are you aware of the changes to technology in Lighting and Electrical products? ✓

Does your company conserve water? ✓

Can you name 2 ways in which you can reduce your carbon output? ✓

Our first training session on how to do your own carbon footprint and sustainable techniques created a lot of interest.

Do not wait for the legislation. Why be forced? Understand the cost impact now!

Book in for our customized training sessions. Phone **1300 857 149** **NOW** to book.

End of Financial Year is on us !! (EOFYS)

Avoid the stress of tight deadlines. Order your service during June and validate your reports to the board.

Here is your Checklist:

Sinking Fund Audit

Our Flagship service. Are your upcoming expenses covered? Are your body corporate fees too high? Find out before that question is asked at the AGM.

Insurance Valuation

Are you carrying enough insurance? Value the property asset and have confidence in presenting to the board.

Safety Audit

Reduce your exposure to law suits. Show social responsibility in commissioning your own safety audit through us.

Depreciation Schedule

Qualified assessment of property asset value. Detailed report on the value and condition of the asset. Report EOFY with confidence.

Energy Audit

Qualified people assess your energy output, suggesting strategy to reduce your carbon footprint, reduce costs and recover outlays. Book your energy audit and know your position before the legislation takes effect in the near future.

Carbon Footprint

Our customised training will teach you how to assess your carbon footprint, and adopt sustainable techniques to reducing it. Reduce your costs and become environmentally responsible through accredited training. Book your session before other pressures run you up against legislation.
